about

Ty, a resident of Sandy, UT near the beautiful Wasatch mountains, has embraced a fulfilling life with his partner, Sinead, and their beloved pets: two dogs named Javi and Lily, and a cat named Fuzzy. In his free time, Ty enjoys engaging in hands-on projects, improving his home, experimenting with smoking meats, and exploring the great outdoors. He is an enthusiastic fan of soccer and Formula 1, and finds relaxation and enjoyment by playing video games with his friends on weekends. Ty's passion for graphic design began at a young age when he created posters and t-shirts for events at his local church. With his experience working in an agency setting, he has successfully contributed to large-scale projects and demonstrated proficiency in managing brands and design systems. Today, he takes pleasure in leveraging his expertise to develop exceptional products that solve problems through the clever use of data and engaging visual design.
